

Our economy isn't working for too many people, and it is even more difficult for women.

I support HB 6932 and HB 6784 because they allow workers to balance caring for their families and their jobs.

Legislators need to understand the needs of people struggling to do a good job at work and take good care of their families. Most of these are single parent families. Headed overwhelmingly by stressed-out women, they are unable to be in two places at once. People who have not experienced this dilemma need to find a solution for it.
