

Our economy isn't working for too many people, and it is even more difficult for women.

I support HB 6932 and HB 6784 because they allow workers to balance caring for their families and their jobs.

Why should we be glad to have a job with little or pay raises, having to take our vacations no when we want but when the corporations want us to. Why should we the workers have to take furloughs when the CEOs take large bonuses regardless if they are doing a good job or bad.

We are just slaves who have to be thankful we have a job, especially us who are 50 or older who are expendable. I am 60 and know if I lose my job I will not find another. I am a veteran and that doesn't even count.

Executive compensation should be public and every bit of it should be taxed.
