

Our economy isn't working for too many people, and it is even more difficult for women.

I support HB 6932 and HB 6784 because they allow workers to balance caring for their families and their jobs.

Women are far more likely to have the primary responsibility to care for children and elderly family members, yet far less likely to have paid time off to care for them. We need to create a paid family and medical leave system and expand paid sick days so that workers can support their families. Workers shouldn't have to choose between their health and their paycheck.
