

Our economy isn't working for too many people, and it is even more difficult for women.

I support HB 6932 and HB 6784 because they allow workers to balance caring for their families and their jobs. Women with families have two jobs-- the job outside the home that pays money and the job inside the home that does not pay. Many women have to work two outside jobs to survive. This is not a healthy situation, but it is a reality. A paid family and medical leave program would begin to address this issue. It is the least we can do.
