

Testimony Regarding SB 1035: An Act Concerning Workplace Bullying

March 2, 2015

I have been the victim of bullying in my workplace. I know that you are considering a bill, SB 1035, to deal with this type of abuse. I am grateful but I do not think this bill is enough. I work for a private employer so this bill cannot help me and I do need your help. I have often felt that I am alone when I am bullied. I do realize that others including public employees have been victimized. I do want them to be protected. I just do not want to be left alone without any help. I always feel that I must be brave when I face up to the bully but I cannot do this alone. I know you want to help people that work for the public but you also need to help everyone who suffers from this abuse. We are all in the same boat. I ask that you be brave for all of us. Please consider enacting legislation called the Healthy Workplace Bill, which has been proposed in other states as well. Thank you for your work on this problem and I hope you succeed.
