

**PLEASE** vote to increase the threshold required for the passage or expansion of any and all unfunded mandates! I would prefer to see all unfunded mandates stopped, but HB-5096 is a step in the right direction.

**I am a disabled veteran, am on limited income, and a homeowner. Unfunded mandates continually drive up our property taxes, putting increased direct burdens onto me and many other low income homeowners, especially the elderly.**

**I personally believe that unfunded mandates are direct violations of our Rights under our State and Federal Constitutions.**

**Thank you for considering my comments.**
