

Hi, I'm Bridgeport City Councilman Enrique Torres of the 130<sup>th</sup> District, and I'm here today to speak in support of HB 5886. Elimination of conflicts of interests is a necessary ingredient to good government. Ending the current system in Bridgeport where City Councilors are also functioning as city employees serving at the pleasure of the mayor, can be the first step towards restoring an independent and necessary branch of government. Not ending this system perpetuates an unchecked executive and should concern you as to the veracity of the process of protecting state funds.

Let's consider a few examples:

- Bridgeport has undertaken its second personnel investigation into sitting City Councilman and City employee Richard Paoletto. Councilman Paoletto, who also serves as the Deputy Director of Housing and Commercial Code Enforcement, was placed on paid administrative leave after a college intern filed a sexual harassment claim against him in October.

Under normal circumstances, City Council President Tom McCarthy, who is also the Deputy Director of Labor Relations, would get involved in a personnel matter of this nature. However, McCarthy has chosen to excuse himself from his \$150,000 a year job obligation. As Deputy Director of Labor Relations, it is Tom McCarthy's job to investigate personnel matters such as these.

Director McCarthy cannot perform his duties as a paid city employee because Council President McCarthy has a political conflict of interest in the matter with a fellow elected city councilman who happens to be the subject of an investigation.

The confusion continues as part of the suspension requires city employee Paoletto to stay off of city property. However, Councilman Paoletto apparently has no such limitation entering city hall as a Councilman.

This begs the next hypothetical question; would Tom and any other councilman /employee of the City have to recuse themselves of voting on any legal settlement between the City and the intern?

- Another flagrant example of this problem took place in 2013 when the City of Bridgeport bonded roughly \$400,000 to pay for improvements to a city contractor's private property, locally referred to as "Driveway-Gate".
- The Airport Manager, a paid city employee, hired the same contractor for whom the driveway was constructed for to perform the work. The Airport Manager presumably failed to officially disclose that he had a history of real estate dealings with the contractor, although this relationship was no secret to anyone. Tom McCarthy, member of the Airport Commission, employee of the City of Bridgeport and President of the Common Council, oversaw the approval of the appropriation and the work.

Then the story was revealed by the CT Post, the Airport Manager who reports to Airport Commission of which Tom McCarthy is a voting member was suspended with pay by the Office of Labor Relations where Tom McCarthy is a Deputy Director. The Airport Manager was subsequently fired by a review panel which was comprised three attorneys including McCarthy's boss, the Director of Labor Relations.

In the end, the terminated Airport Manager dropped his claim against the City and a settlement was avoided. However, in a hypothetical scenario where this matter went to court the City Council would have to authorize the city attorneys to settle the claim and would have to approve any unanticipated funds that resulted from a settlement and yes, Tom McCarthy President of the City Council could have voted on the matter.

- Sadly, I must report my frustrated experiences on the Council. On countless times the Council has heard cogent, intelligent opposition to mayoral dictates. Some councilmen actually will chime in in agreement to the dissonance, however, once the vote is taken all fall into place like puppets on a string. The mayor controls the council. This is antithetical to an American governmental system.

If we are to ever expect an honest political process in the City of Bridgeport, the City Council must become an independent legislative body of government. To become independent we must remove mayoral influence from its ranks.

City Council President Tom McCarthy best exemplifies what is wrong with the Common Council. Tom works directly for the mayor. The mayor may fire him without cause. Tom has no free will to represent the public that elected him. Tom is the Deputy Director of Labor Relations. He has control over the other Councilmen who work

for the city. All of this leads to a city completely run out of the mayor's office, through Tom's office without oversight.

Bridgeport residents object to this practice. Our City Charter prohibits the behavior. State law prohibits the behavior for Finance Boards which generally control budgetary processes. Bridgeport, however, eliminated its Finance Board and rolled the Finance Board's purview to the Common Council. State law is silent on this particular type of governance. However, it is clear of the intent of the state law; among other things to deny legislators the ability to vote on their own salaries.

Given these examples, I created a petition demanding that the Mayor, the Common Council, Bridgeport boards and commission and the entire Bridgeport state legislative delegation support the enforcement of the Bridgeport City Charter banning city employees from serving on the Common Council. I hereby submit this petition as well as my statement into the public record here today.

I implore the members of the State Assembly to keep this bill in its current draft and resist any possible future amendments that may provide a grandfather provision for current councilman / employees. This practice is wrong. Bridgeport residents voted by referendum to prohibit the practice and is included in the Charter of the City of Bridgeport. Please do what is right and free Bridgeport from this unethical practice.

Thank you.

City Councilman Enrique Torres  
Bridgeport CT
