

RE:S B # 188
Town of Andover CT

I completely agree with the suggestion in this Bill, that municipalities be allowed to put their legal notice on their website instead of taking out a legal notices in a newspaper. Andover is a ¼ ly payment town. That means 4 legal notices on 3 separate dates prior to each collection period, which is very expensive for the town. If the idea of the notice on the towns' website vs. in the legal notices in the paper is that the majority of the people see it, than online has the better chance of being looked at. The savings for our town would be \$840.00.
