

I am in support for S.B. Number 188. The Town of East Windsor currently spends about \$800.00 a year for publications for the Town, Sewer and Airport. I believe this will increase since one of the Fire Districts will be breaking off from the Town and having their own budget. That will increase the publications by \$400.00. There is a second Fire Department that is looking to become a district through legislation. They would incur that costs of the publication the following year. That would be another \$400.00. That would double the costs of publications in two years. Quite honestly when I look for the publications in the newspaper they are wedged between classified advertisements. They are not highly visible. East Windsor is Distressed Municipality. Any and all cost savings must be considered. This would be a savings to the town. The taxpayers look to websites for information. I believe this would be a cost savings to taxpayers and a more visible avenue for publications. Thank you. Patricia Kratochvil, East Windsor Tax Collector
