Re: Senate Bill 203 to amend CSG 8-3c

Committee Members,

I would like to share my objections about the Senate Bill 203. I currently live in New Milford, and have the pleasure to work with four clients who reside at 1 Red Fox Lane. This bill would interfere with these clients ability to live in this community they consider their home. Our program provides these men with the opportunity to reside outside of a hospital setting and experience the best quality of life available to them. Please do not pass Bill 203, and allow CGS 8-3c to remain the same.

Sincerely yours,

Emma Cianci
