To: Senate Planning and Development Committee

Legislative Office Building

Hartford CT

Honorable Committee Members,

I live on Red Fox Lane in New Milford CT directly across the street from the Community Residences supervised by the Center for Human Development.

This program has been open for 1 year and I have had no negative issues with the clients or staff of this program, who I see on a regular basis.

I am requesting the Senate Bill 203 which is up for discussion at this time not be past. This Bill will have a negative impact on programs of this type and could result in restricting them of providing services in residential neighborhoods.
