

1089

To whom it may concern;

My name is Amy Greene and I am a BCBA for the Danbury Public School System.

I work with families in the school system most of whom cannot afford to pay for ABA home services themselves. Licensing of BCBA's and BCaBA's will assist these families to get much needed services in to their home.

Connecticut should strive to be a forerunner in disability services and our neighboring states have already adopted the licensing of these practitioners. Autism continues to become more prevalent across the world and ABA services have shown to be effective in assisting these individuals and their families.

As the field continues to grow, our state should look to assist families in need as best they can, as well as oversee the providers who serve them.

I am in favor of SB 1089 sections 23-29. I wholeheartedly ask you to pass this bill in order to benefit the consumers of ABA services in the State of Connecticut.

Sincerely,  
Amy L. Greene, BCBA
