

1089

To whom it may concern,

My name is Bridget Gates, and I live and work in Milford, CT. I currently work with children and teens with Autism, and I strongly support the work that Behavior Analysts do for this population. I believe licensure is critical for Behavior Analysts because it is extremely important that clients with special needs get the correct, specialized education and help that they need. I have seen firsthand how ABA can change a child's life for the better, and I believe all children and parents should be able to have access to resources such as this. Please pass SB 1089 as soon as possible.
