

1089

Lisa Gregory
Milford, CT

I am writing this in favor of SB 1089 sections 23-29 inclusive. Please take my testimony into consideration when making the decision. Our children are in need of certified behavior analysts. I have worked with children with autism for over 13 years and have seen the positive impact that behavior analysis has had on their development and progress. Some of my students would not be able to be active members in their communities without the systematic approach of behavior analysis.

Sincerely,
Lisa Gregory
