

1089

Hi,

My name is Nicole Gardella, I am a special education teacher in Milford CT and a resident of Norwalk CT. I am in favor of SB 1089, sections 23-29. Many of my students receive home programming and licensure will protect the families from fraudulent behavior programs coming into their homes. NY, MA, and RI have all passed BCBA licensure, as a special education teacher I worry that people who are not truly behavior analysts will flock to Connecticut and try to sell their services to vulnerable families. Licensure is critical for the state of Connecticut and for children with disabilities. Please support SB 1089, sections 23-29. Thank you.

Nicole Gardella
