

1089

Hello, my name is Shauna Giannuzzi. I am a BCBA and have been certified since 2010. I am writing this email in support of **SB1089 (sections 23-29)**

Licensure for Behavior Analysts.

I believe that it is important for BCBA's to be licensed, so they can be recognized as the direct providers of ABA services and monitor a child's services. Having licensure will also allow families to receive services through insurance more easily. The more services children receive while they are young, the better the outcome. A licensure will also ensure that BCBA's are practicing as stated by the BACB and will enforce any wrong doings, which will benefit children as well.

Sincerely,

Shauna Giannuzzi, BCBA
