Why do we need more casinos?

Is the State trying to generate more income from casinos?

Is this the State's answer to solving the run away spending of our State and the out of control deficit?

The income from the two casinos we have now have not got the State out of debt!

Casinos do not built a true good dependable economy for our State.

Look at the two Casinos we have now, have they helped the towns in the Eastern part of our State? No they have not.

If something is not working why do more of it.

Why doesn't the State focus on bring sustainable business to the State instead of a faults business that the Casinos bring.
