Re: HB 6777

To whom it may concern,

I am writing in favor of HB 6777. I am not only small business owner in Connecticut, a fourth generation fire sprinkler fitter, but also a firm believer in the fact that fire sprinklers save precious lives and property. My family recently moved in Trumbull and this is the third home in Connecticut that we have lived in and installed residential fire sprinklers. It seems that especially at this time of the year, a deadly fire is in the news almost every day. I believe these tragedies are needless and could be easily avoided if homes had a residential fire sprinkler system installed in them.

Very truly yours

BRAKE FIRE PROTECTION, INC.
