

Border Tolls are the most disgusting idea this administration has come up with so far. All you will do is start a border war with our neighboring states.

Border tolls will just create further congestion on our highways and further aggravate the motoring public. I hate being stuck on Connecticut's longest parking lot

(I-91) It is no more than another TAX on our wages for those of us that do work in neighboring states>

Wake up! GET real and listen to your constituents!!

I am totally opposed to additional of any border tolls or any further taxes on my pay. I

We in Connecticut pay the highest Gasoline taxes on the country. We are taxed to death. Instead of further taxing the working man, maybe we need to

look into cutting government expenses or even YOUR salaries. You were elected to serve your constituents, not your own personal agenda's at the taxpayers' expense

I am looking to retire soon from PWA and I can't see how I can afford it here in **ConTAXicut!** The working man needs real tax relief !!

CUT government spending, No free bees for those who don't want to work. Connecticut is on the ROAD TO DESTRUCTION!
