I am in favor of border tolls. Although they are taxes, we CT residents pay them in other states thus helping their states economy. Why shouldn't out of staters have to do the same for our state and help us pay our road repair bills, roads that they are putting wear and tear on.

Border residents who chose to spend their money across the border in another state do it by choice. There are plenty of businesses in our state who could use their support.

Help your state and everyone in it!!!!
