

I am writing to oppose placing tolls on our highways  
I can only image the additional traffic the will be on  
our already conjected streets.

Our residents who commute to work will have an  
additional expense of paying a toll to get to and  
from work.

Former Governor Bill O'Neill fought hard to remove them  
please do not restore them.

If you insist on placing tolls on our highways  
do it in the middle of the state and not on our borders

Sincerely  
Mary Ann Doran  
Danbury CT
