

Sir,

In regards to proposed Bill #488. I have serious concerns about this bill and do not approve of it being passed.

The concept is totally invalid as enumerated by other driving schools

It will water down the efficacy of the teaching quality of the material it involves that the "new" drivers need to know and apply to their driving.

I have served on the board of MADD for over ten years in the past as treasurer in Ffld county and taught driving for over fifty years. All this experience has been passed on to students by me and my instructors via the classroom not a computer which does not engender discussions or personal involvement.

I sincerely hope that it is rejected for the safety of our future drivers.

Mrs. Joyce A. Howe  
Howe Driving School
