

Sen. Bartalomeo, Rep. Cook,

I am writing in opposition to SB488. If this were to become mandated most driving schools do not have the means to implement the online 8hr. Safe Driving Drug+ Alcohol course. Also it would give up the classroom setting that so much information is given to the students that is not specific to the course and anecdotal.

I own Santo Driving School in Norwalk. I have taught this course for 20yrs. We already have the right to charge up to \$150 for the class and most of us do charge less.

If this proposed bill is passed from the committee it should not be mandated.

Joe Santo
