

Members of the Transportation Committee,

I am writing you to support the Bike Bill SB 502. I realize that it is currently short on specifics but that it is intended to;

- Clarify the law on riding as far to the right as practicable (AFRAP), as recommended by the League of American Bicyclists.
 - Permit and encourage modern bicycle facilities, including two-way bike lanes and "cycle tracks."
 - Clarify when and how motor vehicles may pass slower moving vehicles, including bicycles.
- I am excited about all three aspects of the bill. They would go a long way to make bicycling safer in Connecticut. I regularly bicycle for fitness and transportation on Connecticut highways.
