

February 9, 2015

Dear Representatives and Senators,

I am writing to have SB502 become a forward looking bike bill to help transform this state to one that encourages all modes of transportation. The law should:

Clarify the law on riding as far to the right as practicable

Permit and encourage modern bicycle facilities, including two-way bike lanes and "cycle tracks."

Clarify when and how motor vehicles may pass slower moving vehicles, including bicycles

For Connecticut to hold young people in this state to enjoy living and working here we need to expand viable alternatives to traveling via the automobile. This bill is an important step in this direction.

Thank you,

Jerry Silber
