

Unable to attend. I am lucky to have the wonderful Greenwich Delegation in Hartford to support my views that tolls are not needed. I can visualize what will happen to the communities in the area where tolls will be placed. People will exit prior to the toll booths and clog up the streets, rest assured that there will be numerous instances of "Road Rage". The residents endure enough issues in their well kept community, additional traffic will serve to antagonize them. Without a doubt, there will be people traveling on the city streets who do not know the area, getting lost.

Hopefully the other State Senators, Reps will join my Delegates and vote against the tolls.

Sincerely,  
Robert "Gabe" DeLuca  
Chairman-Transportation Committee  
Stamford's Board of Representatives
