

To the committee,

As a resident of Danbury, tolls at the border of the CT and NY would have a severe economic impact locally and for me personally.

I cross the border using I84 4-6 times per week, sometimes more. This toll is in reality a tax. We already are near the top of the list with it comes to the size of the gasoline tax. Where is that money going?

Please do not let this bill out of committee.

Regards,

Zane Dargaty
