

Hello my name is Jennifer Charles. I have been with Dcf for over three years now. The work-to-learn program has helped me tremendously. From learning life skills, earning money, saving money, classes that has helped me in college and every day life, I would not have learned any other place. Majority of the kids that have been placed in Dcf need this program to survive when they leave Dcf. There's no other place that will offer these courses or give them for free. This program has prepared me for college, getting my own apartment, how to save efficiently and ect. I have learned so much things through this program that even being at college now I still have yet to learned. Please reconsider cutting the budget on this program.
