

Nicole Hebert

Shutting the door's to Independence Northwest would be a loss to the state as D.S.S. is loss to itself. As the mother of a disabled daughter her father and I go through the same problems she goes through.

If Independence Northwest was forced to close their doors to whom would she turn to?

No clear answers just clear confusion with D.S.S.

Since finding Independence Northwest my daughters and our families stress level has gone down tremendously as sure as her self confidence and self respect have considerably gone up.

Having an advocate is a God send! Independence Northwest has never failed her, they point her in the right direction and freely sees the problem through.

Please do not take away our peace of mind by getting rid of the advocates.

Much appreciation to Independence Northwest.
