

Friends:

Just a short note to plead that the budget item supporting the Litchfield Jazz Festival and school remain in Connecticut's budget. To cut off this source of funding is to cut off your nose despite your face.. The Jazz Festival is a wonderful addition to Connecticut's music festivals, and the Jazz Camp is amazing... young men and women using their talents in a positive and entertaining way. The Governor needs to think again, and all of you are the "thinkers". Thank you.
