

I'm writing to express my opposition to the closing of the Kensington Hatchery. I go fishing on the weekends to relax and regenerate so I can go back to work on Monday and make my living and at the same time pay the onerous state taxes that are imposed upon me. Why is it that when the state finds itself in a financial bind you go programs that effect us working people that actually pay the taxes. Why don't you try cutting back on the benefits to the indolent who are on welfare? You always go after the takers rather than the producers like me and my fellow sportsmen. LEAVE THE KENSINGTON HATCHER ALONE.
