

My Name is Craig Terrell I am an avid fisherman TU member. Please reinstate the \$195,000 needed to run the Kensington Hatchery. I purchase a license every year since I was 12 in CT. I have taught two generations here in CT how to fish and now they purchase a license. I am angler that fishes for stocked Salmon. My wife teaches at E.O Smith High School and has had Fish in the Class Room. Its important that our children grow up learning lessons about cold water, Biological oxygen demand turbidity and dissolved particles.

They each get a appreciation for the environment and the importance of taking care of it. This is what our license fee is supposed to be used for. Thanks in avance for your immediate action on this matter.
