

Please reinstate the 195K funding to save the precious state resource of Kensington Hatchery. The restoration of Atlantic salmon greatly enhances the quality of our waters in CT. I get a license every year and hope to tie into a salmon one day. The same can be said of the special Brown Trout raised in Kensington. Don't make a tragic mistake now and stop funding for something that will be irreplaceable in the future.

Thanks for listening Tom MacTaggart/Norwich, CT
