

Please reinstate the \$195,000 needed to run the Kensington Hatchery.

I am an angler and pay for license every year. These license funds should go to DEEP & fisheries program where they belong.

The better programs the state has the more in-state license & out of state license will be purchased. There's no need to step backwards on programs that would support themselves if the license funds were appropriately sent to DEEP & Fisheries.

Please don't be penny wise & dollar foolish

Thanks for your time
