

Gentlemen: The salmon program in CT basically generates more money in outside revenue (gas, food, lodging, tackle, licenses) than the \$196,000 cost of overall operation. Also, I am hopeful that Johnny Morris of Bass Pro doesn't find out that you plan on closing 1 out of 3 hatcheries in CT. If he decided to pull out of the Steel Point Project in Bridgeport at this time, who could blame him?

Sincerely, John Mullen, Seymour, CT.
