

From Margaret Sullivan, president of Ansonia Library Board (member and president for over 20 years). Please help our Library and all Libraries of Ct to keep their funding opportunities. We are open to the people of Ansonia and all cities to further their education, for personal use of computers, renting of movies, children's library run by librarians who care and share all aspects of reading and creativity. The money given by state funds is essential to the continuing of all these options in the way they are done now.

Please save our funding from State. Thank you.

Margaret Sullivan

President of Ansonia Library Board
