

Dear Governor,

My name is Maria Dominici and I reside in Weston, CT. I have been a CT resident for 17 years. I'm raising my two children here. One of my children has autism. She is 13 and will require DDS services upon turning 18.

Why would you want to cut this budget? No! Please don't. We and many other families need and depend upon DDS to help us.

I am a law abiding citizen. I pay all my taxes. I have owned two CT based companies that help people here in CT only! One of those companies is still in operation. My husband has owned a Norwalk, CT based company since 1991.

Why would you want to hurt people here in CT?

Don't cut the DDS budget, please! Don't hurt CT residents, especially those who need help the most and are the most loving, sweet population of all.

Sincerely,

Maria Dominici
