

Greetings, I am a Birth -3 Provider for Jane Bisantz and Associates. I understand that there is the possibility of making changes to the system that would, again take resources from the children we serve and their families. The paperwork that is presently required is overwhelming. Any increase in the demands would further erode the system. I have worked in B-3 for over 30 years and it is disheartening to see the decrease in resources to this most needy population.

Regards, Barbara Hall PT
