

To whom it may concern:

Land conservation and historic preservation in Connecticut will be dealt a serious setback if \$15.2 million is swept out of the Community Investment Act. There is no doubt that important bird and wildlife habitats, as well as historic sites, will be lost forever. As a member and supporter of the Connecticut Audubon Society, I implore you to save the Community Investment Act fund. I, along with the the Connecticut Audubon Society, oppose section 5 of the Deficiency Bill.

Thank you and best regards,
