Opposition to \$15.2 Million Sweep of Community Investment Act

To Whom it May Concern,

I am writing today to OPPOSE removing any money from the Community Investment Act. Our state parks and lands generate millions of dollars in tourism revenue and are used by both residents and tourists alike.

However when it comes time to cut funding the state parks and lands are almost always the first to lose their funding. A recent visit to a local state park showed many maintenance issues, if funding is cut these issues will increase to the point where some state parks/ lands won't be safe to use.

Please keep all funding for our state parks and lands intact.

Thank You,

Sean McQuilken
