

I oppose HB 6825, Section 5, the "Governor's Deficiency Bill" as well as the current budget proposal to sweep all CIA funds SB 946, Section 29b.

I understand budget constraints but Connecticut residents have voiced time and time again that conserving land is important to us. New Englanders value protecting open space for wildlife and recreational use. Cut the waste in our budget, not our trees and open space!

Thank you,
Melissa Pericolosi
South Glastonbury, CT
