

Dear Senators,

It is important that you support the passing of SB128, we need a budgetary spending cap. We need to know when spending has hit that cap and that those expenditures be used to calculate future budgets and their spending caps. We all do this at home, we also keep to our projected spending in Branford no matter what party is in charge, if an emergency comes up we decide on the RTM whether the expenditure should stay in the budget in outgoing years, you should be able to take the same responsibility in Hartford.

Thanks,

Ray Ingraham  
Branford RTM – Majority Leader
