

As a citizen and taxpayer residing in Connecticut I endorse the provisions of Senate Bill 128.

As an individual and as a family one must live within one's means. Our state's government should be no different.

Excessive spending has a "downstream effect" which is injurious to our state's future. This ultimately affects all of us especially those of lower socioeconomic status. However well intentioned, today's "great ideas" may become tomorrow's follies with a price to be paid regardless of outcome.

Please support SB 128. Thank you.

Joseph A Wilkinson
