

To all CT Senators,

Please vote in favor of Senate Bill 816 to help the residents of Haddam receive more funding for our education expenses.

An adjustment is long overdue and we are not receiving a fair share of the grant funding.

Each year this is ignored is another year where Haddam residents have to struggle to keep up with the growing gap between what we need to survive and thrive, and what we receive.

The current allocations are discriminatory and deserve serious consideration.

Each child in Connecticut deserves a fair share, and I know you are all committed to getting this taken care of.

Thank you for your service and dedication to the residents of Connecticut.
