Sen. Linares, Art
Senate Bill 816

As a taxpayer, resident and mother of a student receiving special education services in the Regional District 17 school district, I strongly support Senate Bill 816. It is appalling to learn how unfairly the town of Haddam has been funded from the state's education cost sharing grant, especially when comparing funding with neighboring towns in the area. Please consider changes to make Haddam's funding more equitable.

Thank you,
Heather Scanlon
