To Whom It May Concern,

As the Parent Chair of Coventry STEPS, Coventry's Early Childhood Collaborative, I am writing in support of House Bill 7020.

We have made incredible progress in our community over the past five years to support our youngest citizens and their families. Prior to the existence of our collaborative, families of young children had nowhere to turn for information and support. Coventry STEPS has worked tirelessly to provide the necessary resources to families. Furthermore, the collaborative has given these families an outlet to share their perspective and to voice their needs.

Support from the Office of Early Childhood is absolutely essential to continue this important work.

Thank you,

Jillian Miner
