

I am very much in favor of HB 5707 and ask for your support in passing it. This bill provides hope of loving homes for animals whose lives have been spent in misery in pain as lab research subjects. It also provides legal protection for animals against being left to suffer in inclement weather conditions. Private citizens care very much about the issues of animal welfare and protection of innocent life from cruelty and abuse.

Thank you very much for your consideration of my feelings on this important matter.

Sincerely,

Lisa Haut
