

I support HB 5707, the Beagle Freedom Bill, that would mandate the post-experiment release of dogs and cats from taxpayer-assisted labs. These animals have a right to live out the rest of their lives in a humane and caring environment, and not be killed even if healthy. HB 5707 would facilitate a relationship between CT labs and rescue organizations so these survivors can have a chance at a life after the lab.

Thank you,

Maureen Zimmer
