Hartford, CT 06106

**Re: Raised HB 6034 “An Act Authorizing Bow and Arrow Hunting on Certain Private Property on Sundays”.**

Distinguished Members of the Environmental Committee:

The members of the *Connecticut Fur Harvesters Association* firmly **SUPPORT** H.B. 6043.

It is time for Connecticut to allow hunters to hunt on private properties on Sundays. The bill should allow for Sunday hunting on all private property in Connecticut with written landowner permission.

Many old, antiquated Blue Laws have been eliminated and this one should be as well.

This Bill would allow working Connecticut sportsmen and woman the opportunity to hunt an additional weekend day on private land.

We urge you to support H.B.6034 and bring this bill to the House and Senate floors to be voted on.

Sincerely,

Herb Sobanski Jr.  
President - Connecticut Fur Harvesters Association
