

CT Law Makers,

I am strongly **for** this law passing. As a bow hunter with a full time, first shift, job I can only hunt once a week (on Saturday) for the short hunting season we have. If this law was passed I could double my hunting time (Saturday and Sunday).

Hunters do not get all the deer they are allowed to bag in a season and deer cost the people of state of CT a lot of money in damages between crop loss, landscaping damages, and most important car accidents that can be deadly. With doubling the time most people can hunt we can get the deer population back under control.

Thank you for your time,
Kevin A. Bryson
